

REDUCING IMPACTS OF CLIMATE CHANGE

Júlia Magalhães de Sant'Anna

English Learning Program

Presented to the Faculties of the University of Pennsylvania

in

Partial Fulfillment of the Requirements for the

English Learning Program Certificate

2023

## Unit 5

### Assessment 2

Climate change is everywhere Behrens and Barnes (2016). This is a statement, Lake (1979).

The solution for climate change won't come from a single source, it is a joint effort that must come from all areas.

Group awareness might have a great impact in reducing climate change.
